

British Cheese Plate - £4 per cheese

Grapes, artisan biscuits, poppy seed crackers & piccalilli

Black Bomber – A multi award winning cheddar, marrying a rich flavour with smooth creaminess. Lasts long on the palate and demanding moreish.

Clara Goats' Cheese - An ash rolled goats cheese, with a creamy and buttery flavour, complimented with lemony notes and hints of freshly cut grass.

Croxtan Manor Stilton – Made by master cheese-makers of Long Clawson in Leicestershire, each round of stilton is graded and hand selected to ensure blue veins, radiate evenly from the centre and there is the right balance between crumbly texture and tangy flavour.

Quicke's Mature Cheddar – The most famous cheese in the Quicke's range this mature cheddar is made by slowly maturing a muslin wrapped truckle for a year while allowing it to breath producing a beautiful rinded cheese with a unique and complex flavour.

Maida Vale – The name of this pungent soft cheese from Berkshire based Village Maid is nothing to do with the West London suburb, but a reference to the fact the redolent orange rind is formed by regular washes in a local IPA called Treason. This helps give the rind yeasty, bready notes while the rich Guernsey milk gives the interior it's mild and buttery taste.

Sparkenhoe Red Leicester – A clothbound cheese that changes from savoury & smooth to nutty and rich as it matures. The cheeses are turned and brushed once a week at the maturing arches in Bermondsey.
